

Maverick Medical AI Platform Wins 2024 MedTech Breakthrough Award

Prestigious International Annual Awards Program Recognizes Standout Digital Health & Medical Technology Products and Companies

WILMINGTON, Del., – JUNE 18, 2024 – [Maverick Medical AI](#), or Maverick, a provider of an innovative and autonomous AI-powered medical coding platform, today announced that has been selected as winner of the “Best Overall Health Administration Software” award in the 8th annual MedTech Breakthrough Awards program conducted by [MedTech Breakthrough](#), an independent market intelligence organization that recognizes the top companies, technologies and products in the global digital health and medical technology market.

Maverick Medical AI revolutionizes medical coding for healthcare providers, including imaging centers and hospitals, with its AI-powered Autonomous Medical Coding platform. By combining in-depth knowledge of medical coding with advanced large language models and deep learning technologies, Maverick’s platform autonomously analyzes clinical notes and reports to generate accurate medical codes. This streamlines the coding process and bridges the gap between physicians and medical coders by providing real-time communication to optimize reimbursement. Maverick significantly surpasses industry standards with an 85 percent Direct-to-Bill rate, automating the medical coding process to enhance efficiency, reduce the workload on human coders, and minimize errors. This automation ensures a smoother, more reliable, and consistent revenue cycle process for healthcare providers.

“Our vision for our platform is to leverage Artificial Intelligence to revolutionize the healthcare revenue cycle process. By actively listening to our customers and developing solutions using the latest technologies, such as Deep Learning AI, we overcome Revenue Cycle challenges by seamlessly integrating Medical Coding with Point-of-Care in Real-time. Our commitment is to create innovative tools that enhance efficiency, reduce errors, and ultimately optimize financial performance for healthcare providers,” said Yossi Shahak, CEO and Founder of Maverick Medical AI. “We’re thrilled with this award from MedTech Breakthrough. We’ll continue to seek partnerships and develop technology that underscores the potential of AI to transform healthcare administration, making labor-intensive and error-prone processes more efficient and accurate.”

The mission of the MedTech Breakthrough Awards is to honor excellence and recognize the innovation, hard work and success in a range of health and medical technology categories, including Telehealth, Clinical Administration, Patient Engagement, Electronic Health Records (EHR), Virtual Care, Medical Devices, Medical Data & Privacy, and many more. This year’s program attracted thousands of nominations from over 18 different countries throughout the world.

“Maverick Medical AI is replacing legacy coding systems, streamlining coding processes, and reducing errors along the way. Medical coding has existed for years, but today’s industry is labor intensive and prone to costly errors and a lack of people,” said Steve Johansson, managing director, MedTech Breakthrough. “By enhancing efficiency, reducing human workload, and minimizing errors, Maverick is shaping the future of medical coding. The automation provided

by their platform ensures a smoother, more reliable, and consistent revenue cycle process for healthcare providers. Congratulations on winning ‘Best Overall Health Administration Software.’”

Additionally, Maverick Medical AI has partnered with RadNet, Inc. to integrate Maverick’s technology with RadNet’s [DeepHealth](#) platform which showcases the real-world benefits and applications of this AI-powered solution in healthcare settings.

About Maverick Medical AI

Maverick Medical AI revolutionizes medical coding for healthcare providers with its AI-powered Real-Time Autonomous Medical Coding platform. By combining in-depth knowledge of medical coding with advanced large language models and deep learning technologies, Maverick’s platform autonomously analyzes clinical notes and reports to generate accurate medical codes.

We overcome Revenue Cycle challenges by seamlessly integrating Medical Coding operations with Point-of-Care in Real-Time to optimize reimbursement. Maverick significantly surpasses industry standards with an 85 percent Direct-to-Bill rate, automating the medical coding process to enhance efficiency, reduce the workload on human coders, and minimize errors. This automation ensures a smoother, more reliable, and consistent revenue cycle process for healthcare providers.

About MedTech Breakthrough

Part of [Tech Breakthrough](#), a leading market intelligence and recognition platform for global technology innovation and leadership, the MedTech Breakthrough Awards program is devoted to honoring excellence and innovation in medical & health technology companies, products, services and people. The MedTech Breakthrough Awards provide a platform for public recognition around the achievements of breakthrough healthcare and medical companies and products in categories that include Patient Experience & Engagement, Health & Fitness, Medical Devices, Clinical Administration, Connected Healthcare, Medical Data, Healthcare Cybersecurity and more. For more information visit MedTechBreakthrough.com.
